

FabFilter Pro-Q 3 wins TEC & SOS Awards at the Winter NAMM Show 2020

January 30, 2020

FOR IMMEDIATE RELEASE

After having a fantastic 2019 by winning an Engineering Emmy Award, FabFilter continues to prove its quality by winning not just one but two awards at the Winter NAMM Show 2020. On Friday, Sound On Sound readers voted FabFilter Pro-Q 3 for the Best New Software Plug-in for its innovative and contemporary design. Pro-Q 3 also won again at the 35th TEC Awards in the category of *Signal Processing Software*.

The team at Music Marketing congratulates FabFilter for their growing list of achievements and excited for more to come.
