

DJ.Studio

Music Marketing Inc Now Distributes DJ.Studio

FOR IMMEDIATE RELEASE - September 19, 2024

Music Marketing Inc is proud to announce the official distribution of DJ.Studio, a cutting-edge AI-powered DJ mixing app that revolutionizes the way DJs create their mixes.

Started in the Netherlands in 2022 by Siebrand Dijkstra, the DJ.Studio company is a team of 28 employees who have been building other software products together for 12 years. After reviewing the market, they wanted to build a DAW catered specifically for DJs and their needs. Up to date, their company estimates that over 200,000 DJs are already mastering their craft with their revolutionary software.

With their flagship DJ software, crafting professional-quality DJ sets is simplified to just a few simple steps. By harnessing the power of millions of calculations, the Automix feature intelligently organizes your playlist based on tempo and harmonic matching inspired by the Camelot Wheel. This means that your mixes are not only easier to create but also ensure seamless transitions that elevate your sound to perfection. DJ.Studio saves DJs substantial amounts of time, allowing them to focus more on the creative aspect of their craft and guaranteeing that each mix is a flawless masterpiece.

With our new partnership, we are pleased to share that DJ.Studio will soon be available for our reseller network to offer, expanding its reach and empowering DJs worldwide.
